

To Whom It May Concern:

Carlton R. Stiff did the brick and block work on the Louisa Regional Sewage Plant. This consisted of two buildings. He did an excellent job, true to line, level and plumb. He also kept his work clean and neat. After each day's work, he would clean his work and cover it up so it would not be exposed to the possibility of an afternoon rain. The owners and engineers said that it was a real nice job. He not only can do brick and block work in a professional manner, but he can also do layout work. He is capable of doing any job according to specifications. I highly recommend him as a brick mason.

Yours truly,

A handwritten signature in cursive script that reads "Frank O. Moon". The ink is dark and the signature is written on a light-colored background.

Frank O. Moon
