To whom it may concern,

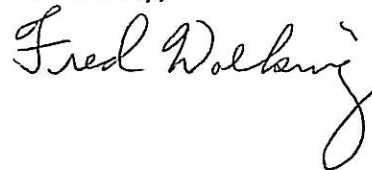

If anyone needs quality masonry work, brick, block or poured, I highly recommend Mr. Carlton Stiff and his company, Stiff construction, Incorporated.

I was in a bind. A very unhappy experience with an improperly licensed, and uninsured, workman left me with no front steps for my home. Mr. Stiff was the only one of three contractors I contacted who chose to take the time to visit my home, discuss my needs and sign a contract.

He took considerable time to discuss the drawings, building code requirements, and my wife's wishes for some special features in our new, brick, front steps. Once we had a contract he and his crew moved in a timely manner to construct a beautiful set of brick front steps. At the end of each work day his crew cleaned up what material could be discarded. This left my yard in int best possible state during the duration of the project.

Any one who is considering choosing Stiff Construction for their masonry construction needs is welcome to view the results of his work at my residence or to call me to discuss the work.

Yours truly,
