RE: Letter of Recommendation

To Whom It May Concern:

We would like to extend this letter of recommendation in respect to the services provided to the Maggie L. Walker Governor's School by Stiff Construction, Inc. and Mr. Carlton R. Stiff, President.

Recently, we were required to make some improvements to the concrete sidewalks at the school. While the scope of work was small when compared to new construction, our need to complete the work under deadline was urgent. Complicating our circumstances was the fact that our job was, indeed, small. Before we were referred to Stiff Construction, other estimators simply would not come by the building to even offer us a proposal. Carlton Stiff, however, responded immediately to our request – adjusting his own, busy schedule - and by the end of the business week we had, in-hand, a very reasonable proposal that addressed all of our concerns.

Stiff Construction's performance lives up to the high standards we set for our contractors. Mr. Stiff was most willing to tackle our problems not only within our timeframe, but also around our school-day schedule. His cooperation was outstanding. Based on the above, we would highly recommend Stiff Construction, Inc. for any project – large or small - requiring concrete installation, repair and removal.

Sincerely,

Gene Roland  
Facilities Manager
